Professional Objective

Recent graduate passionate about building web solutions, especially within the JavaScript ecosystem (Node.js, React, etc.). I aim to join a development company or an innovative firm where I can apply my skills, continue learning, tackle technical challenges, and build a solid career in web development.

Education

Master's Degree (in progress) – Software Engineering and Information Processing
M'Hamed BOUGARA University of Boumerdes
2024 – 2026

Bachelor's Degree in Computer Science – Computer Systems
M'Hamed BOUGARA University of Boumerdes
2021 – 2024

Experience & Professional Projects

- Podcast Blog
  Personal project — Next.js, NestJS, TypeORM, Object Storage, Tailwind CSS
  Developed a custom web platform for centralized management of audio content (podcasts), blog articles, and events. The application integrates a rich text editor for publishing, object storage for MP3 files, and a full-stack architecture optimized for SEO.
- Internship Management Web Application
  Final year project (Bachelor's) — Laravel, Blade, MySQL
  Created a web application for Sonatrach to efficiently manage interns (onboarding, assignments, tracking, evaluations) with an intuitive interface and role-based access control.
- Cycling Club Website
  Personal project — Next.js, NestJS, Mapbox, Tailwind CSS
  Designed a responsive website for a cycling club. Coaches can publish rides with interactive routes on a map (Mapbox), while members can register for events, manage bookings, and view personalized statistics (distance ridden, expenses, etc.).

Technical Skills

Languages & Frameworks:
JavaScript (ES6+), TypeScript, Next.js (React), NestJS (Node.js)

Frontend:
HTML5, CSS3, Tailwind CSS, React, Next.js, Responsive Design

Backend & Databases:
NestJS, MySQL, TypeORM, Authentication (JWT, sessions)

Architecture & Methodologies:
REST API, MVC, Clean Architecture, Basic CI/CD

Tools & Environment:
Git, GitHub, Postman, VS Code

Languages

Arabic (Native) | French (B2) | English (B2)

Certifications

- Learning SOLID Programming Principles
  LinkedIn — Sep 2025
  Skills: SOLID Design Principles, Programming
- Intensive Artificial Intelligence Bootcamp (1st Place)
  University of Boumerdes — Feb 2025
  Skills: Deep Learning, Computer Vision, NLP, Transformers
- Programming Foundations: Web Security
  LinkedIn — Jan 2025
  Skills: Web Services Security, Secure Coding
- Learning Git and GitHub
  LinkedIn

Interests

Sports, Continuous Learning
